REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's argument is found to be persuasive. Independent claims 1, 19 and 27 each contains recitations to identify the supply fluid passage to be from outside the casing going through the wall of the casing to flow radially through the hub toward the center of the hub to pressurize the pistons. This claimed limitation is not taught by the prior art, in particular JP-9112636, wherein the supply fluid passage of said JP document is inside the shaft S3 and flows radially outward toward the outer circumference of the piston. None of other cited prior art teaches this claimed limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lan Nguyen whose telephone number is 703-308-8347. The examiner can normally be reached on M-F, 8 to 4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on 703-308-3421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
